

ENES SELÇUK

Android Developer

Istanbul, Turkey | +90 552 686 82 25 | enesselcu25@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#) | [Medium](#)

PROFESSIONAL SUMMARY

Android Developer with **5+ years** of experience. I build production Android apps, secure banking SDKs, and cross-platform applications with **Kotlin**, **Jetpack Compose**, **Kotlin Multiplatform (KMP)**, and **Compose Multiplatform (CMP)**. I worked on projects for **Garanti BBVA**, **Migros**, and **Hürriyet**. I focus on **MVI/MVVM**, **Server-Driven UI (SDUI)**, mobile security (**mTLS**, biometrics, **KYC/NFC**), and multi-module architecture. I also work on **CI/CD** pipelines and **unit/UI testing**.

PROFESSIONAL EXPERIENCE

Eteration Bilişim A.Ş. (Contractor at Garanti BBVA Bank)

Senior / Mid Android Developer | Oct 2023 – Apr 2026 · 30+ member cross-functional team

- Built a **modular SDUI SDK** with Jetpack Compose and MVI for **10+ screens/flows**. The backend team can update UI **without app store releases**, replacing a **monthly release cycle** with instant backend-driven changes.
- Implemented **mTLS**, certificate pinning, and secure token auth for App-to-App banking. This removed unauthorized third-party access and **passed the security audit with zero critical findings** on first review.
- Developed **KYC SDKs** with NFC ID scan, OCR, and liveness check. Onboarding time dropped from **8 min** → **3 min** and verification success rate reached **92%**.
- Built a **Server Push SDK** by integrating the third-party **HiveMQ** library with Kotlin Flow, Channels, and MVI. During ATM cash withdrawals, the mobile banking screen updates **automatically without manual refresh**. The solution was designed for **high performance and reliability** in critical banking flows.
- Designed **Individual and Corporate login** with custom Manual DI. Memory use went down by **18%** and login flow bugs dropped by **45%** after release.
- Wrote **50+ Unit and Compose UI tests** (JUnit, Espresso, Mockito) and set up **Jenkins CI/CD**. Test coverage reached **80%** and pipeline time went from **38 min** → **14 min**.

Nuevo Softwarehouse

Android Developer | Jun 2022 – Oct 2023 · 15+ member engineering team

- Led **İŞMER Intranet** end-to-end as the primary Android developer: made all **architectural decisions** (MVVM, modular structure, API integration) and built the corporate employee portal (news, announcements, directory, feedback modules). Delivered production releases on **Google Play**, **Huawei AppGallery**, and the **App Store**.
- Maintained and improved Android apps for **Migros-İK**, **Hürriyet**, **Havaş**, **OYAK**, and **Avivasa**. Apps serve **500K+ / 1M+** active users. Crash-free rate improved from **98.5%** → **99.4%**.
- Refactored legacy **Java/Kotlin** code to **MVVM** with Coroutines and Flow. We removed **50+** old modules/classes and cut build time by **25%**.
- Integrated **WebView** for live reports and dynamic content, enabling flexible web-based updates without native app releases.
- Managed store releases and production delivery for multiple client apps on **Google Play** and **Huawei AppGallery (HMS)**.

Osmaniye Korkut Ata University (IT Dept.)

Part-Time Android Developer | Jul 2020 – Apr 2022 · 5 member development team

- Developed a youth center app with member registration, news, and authentication features using **Java** and **MVP**; implemented the authentication layer with **Firebase**.
- Contributed to the official university mobile app built with **Kotlin**, **MVVM**, and **Firebase**, including login and campus news feed modules.

TECHNICAL SKILLS

Languages	Kotlin, Java, C#, SQL
Android & KMP	Jetpack Compose, CMP, KMP, Coroutines, Flow, Room, Retrofit, Hilt, Koin, Manual DI, ViewModel, Navigation
Architecture	Clean Architecture, MVI, MVVM, Multi-Module, Repository Pattern, DI (Hilt / Manual / Koin), SDUI
Security & Hardware	mTLS, Certificate Pinning, Biometric Auth, NFC, OCR, Liveness, QR Code
CI/CD & Tools	Git, Jenkins, Gradle, JUnit, Espresso, Mockito, Android Studio, Firebase

EDUCATION

Osmaniye Korkut Ata University

Bachelor of Science in Management Information Systems | 2018 – 2022 | GPA: 3.6 / 4.0
